

Eagle Ranch

For nearly 40 years, Eagle Ranch has helped thousands of families experience restored and renewed relationships. With a wide array of services such as outpatient family counseling, a therapeutic school program and temporary residential services for children, Eagle Ranch's mission promotes whole family healing. We strive to maintain a peaceful and safe environment for all families we serve. Our commitment to best practices and financial transparency has earned Eagle Ranch a 4-star rating from Charity Navigator every year since 2015.

Eagle Ranch respects the important role Charity Navigator plays in providing publicly available information to prospective donors. We appreciate the opportunity to respond to the "Proceed with Caution" alert that is posted with our Charity Navigator listing. We are concerned that posting unproven accusations from inflammatory media reports, where we are unable to fully defend ourselves, creates undue negative attention and misinformation to our current and potential supporters.

Eagle Ranch strongly denies the claims made in each civil lawsuit reported in the media and believes the claims to be meritless. Eagle Ranch continues to defend itself against these suits through the legal process. For privacy requirements, as well as pending litigation, the Ranch cannot provide further information until these matters are resolved.
